

# ESE Project Team 5 First Meeting

## Organisation

Stakeholders: Client

Actors: Students, Companies

Deadlines?

Costs?

Userinterface?

## Product requirements

- Does the Application need to run on all possible electronically devices? ( mobile, tablet, computer)
- Does the application need to support a special mobile version?
- Does the Application need to run on all internet browsers?
- How fast should the application behave?
- How easy to handle should the Application be? (Self explaining, instruction script)

## Organisationals

- Should the offered jobs be organised into specific regions?
- Should specific jobs only be accessible for specific universities?(f.e only UniBern)
- Should specific jobs only be accessible for students who do specific courses? (f.e only economic students)

## External

- How should the data security should be handled?
- Does the website allow cookies?
- What about the European-Data-Security-Policy?

## Requirements

### Requirements for companies

- Pensum
- Working hours (f.e only on Monday 12-14)
- The exercises the employee will need to do
- What we can offer the employee as a company
- What makes the company a special/good employer
- Link to company website/instagram/twitter
- What requirements the students should fulfil (f.e second year bachelor studies or higher)
- Possibility to upload PDF of job offer

### Requirements for students

### First possibility

Students can register on the application and upload their cv there, and create an account where they tell who they are, what they do etc. Fill out some formulars etc. Students will then only receive job offers which match their descirption.

### **Second possibility**

Everybody can see the jobs and students do not need to register on the website. Makes it easier.

### **User interfaces.**

- Home interface where you can search all jobs
  - Included popup window for extended search
- Search results
- Interface when you tap on a job offer
- Registration/login page for companies
- Page where companies can post job offers
- Page where companies can see a overview of their profile (job offers - delete/extend/change them)
- Additionally same pages for the students, but not to post job offers, but to receive them.
